APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:
This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.
This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.
No perforations shall be put in the production casing from ground level to 100 feet.
(CONTINUED ON Page)
The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.34 cubic feet per second, but not to exceed 315.42 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before May 15, 1987
Proof of completion of work shall be filed on or before June 15, 1987
Application of water to beneficial use shall be made on or before May 15, 1989
Proof of the application of water to beneficial use shall be filed on or before June 15, 1989
Map in support of proof of beneficial use shall be filed on or before

Completion of work filed IN TESTIMONY WHEREOF, I PETER G. MORROS
State Engineer of Nevada, have hereunto set my hand and the seal of
Proof of beneficial use filed my office, this 3rd day of February

(PERMIT TERMS CONTINUED)

The total combined duty of water under Permits 47025, 47961, 48163, 48164, 48660, 48661, 48662, 48663 and 48664 shall not exceed 315.42 million gallons annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.
